DETAILED ACTION

1. The amendment filed September 24, 2003 has been entered.

Claim Objections

2. Claims 1 and 6 are objected to because of the following informalities:

In claim 1, line 16, it seems the --and-- should be inserted after the semi-colon “;”; in line 21, “the said” is improper, and it is suggested to delete “the” or the like.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. Claims 1 and 6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, lines 24-26, the recitation is unclear as to what is being set forth, and it seems that in line 24 “selected from the group consisting of motion” should be deleted, in line 25, “motion” should be deleted, in line 25, --and-- should be inserted before “rotation”, in line 25, “and” should be deleted, in line 26, --wherein the adjustment control structure is operable to move the holder in any one of the motion directions or-- should be inserted before “simultaneous”, and in line 27, “at” should be changed to --of--.

Art Unit: 3724

In claim 6, lines 2-3, the recitation "means for sequentially applying vacuum to the plate to successively hold segments of the web" is vague and indefinite as to what disclosed structure is being set forth, and it seems that "sequentially" and "successively" should be deleted or the like; in lines 3-4, the recitation "said mechanism" is vague and indefinite and appears to be inaccurate, and it seems that "mechanism" should be changed to --adjustment control structure-- or the like.

Allowable Subject Matter

4. Claims 1 and 6 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
